

On the bottom right is the flag of Spain. The Spanish, who had just freed their own country of non-European domination, were the first European immigrants to permanently settle in North America.

Finally, in the bottom left corner, we are proud to include the white star of the United States; formed from the unification of European descendants in the New World.

## Membership Benefits

- You get a unique and handsome membership card.
- You receive quarterly bulletins with analysis and articles keeping you informed about our activities. Many of these articles are available nowhere else.
- You get access to our exclusive members-only forums, chat groups, economic cooperation and project-sharing website.
- You get the joy and sense of meaning that comes from working for something important.

- You can participate in special projects that make use of your own special skills and interests.
- You get the opportunity to build supportive social and economic networks.
- You get the opportunity to meet and work with like-minded activists to achieve common goals.
- You get our membership handbook that includes our Statement of Ethics, Statement of Principles, and the Constitution of European Americans United.

# EUROPEAN AMERICANS UNITED

Responsible and intelligent activism on  
behalf of European-Americans

## Foundation

European Americans United is founded on this basic proposition:

Pro-European-American views and politics are legitimate, and, as such, are gaining acceptance among increasing numbers of European-Americans daily.

This awakening is the result of massive Third-World immigration, globalization, and the culture war on traditional European-American values. Though these dangerous changes in America began long ago, they have become so egregious that middle-class and blue-collar European-Americans, who uniquely possess the social power needed for political change, are responding independently and spontaneously.

European Americans United seeks to assist this growing resistance by demonstrating that pro-European-American alternatives are a necessary component in American political dialogue. The legitimate concerns of European-Americans will no longer be sidelined and ignored by politicians!

## Who We Are

We are your friends, neighbors and coworkers of European ancestry from every walk of life: scientists, mechanics, farmers, lawyers, engineers and full-time parents. We have no employees. Everyone, including our Board of Directors, is an unpaid volunteer.

## What We Do and Why

While we come from every class and creed, we are united in our pursuit of important European-American interests including freedom, genetic continuity, social justice, economic nationalism and environmental protection.

We draw our core inspiration from the wisdom of America's founding fathers combined with the traditions and ideas of our European forebears.

In pursuit of these goals, we seek to educate those of our people who are not aware of important issues facing us, and help to organize effective ethics-driven mainstream activism for those of our people who want to take a hand in promoting positive change.

## Our Symbol

Our coat of arms symbolizes the unity and diversity of America's European founders. The design is meant to reflect our deep respect for the deep genetic, historical, and cultural roots of European America. For far too long, our history has been portrayed negatively, and our children are taught to feel ashamed.

Far from being ashamed, we are proud of our ancestors, our descendants and ourselves..

In the upper left of our coat of arms is the Cross of Saint George, the Patron Saint of England. This flag was first planted in Virginia at the earliest English-speaking colony of the New World. Our English inheritance – from the common law to our language – is inseparable from America itself.

In the upper right is the fleur-de-lis of France, the nation that opened the Mississippi Valley; and whose sale of Louisiana began the Westward expansion of Manifest Destiny.
